Lovett's

*Fall Planting
Suggestions*

Little Silver **LOVETT'S NURSERY** New Jersey.

Catalog No. 109

Fall 1923

HELPFUL SUGGESTIONS AND TERMS

TERMS.—Payment should be made at time of ordering or before shipment. We prefer to make no shipment **C.O.D.**, but will, when requested, ship in this way, provided twenty-five per cent. of the amount of an order is sent with the order, with return charges added. Kindly remit by Postal Money Order, Registered Letter, Draft, or Express Money Order.

Prices in this catalog abrogate previous quotations. The prices quoted are for the quantities specified, but six, fifty or five hundred **of a variety** will be supplied at dozen, hundred, and thousand rates respectively. Hundred lots may not be made up at hundred rates of less than fifty of a variety; and thousand lots may not be made up at thousand rates of less than five hundred of a variety.

HOW TO ORDER.—Order early. Small favors thankfully received always, but we cannot undertake to fill an order of less amount than one dollar; as the cost of recording and filling it would exceed the small profit of same. Kindly use Order Sheet, and be sure to write your name and address plainly. Give Post Office, County and State—and do this every time you write. Be particular to state how the goods are to be shipped; whether by mail, express or freight, and state plainly to what points goods are to be sent. Keep a correct copy of the order and check off the plants, etc., when they arrive. Persons sometimes forget what they have ordered and make unjust complaint. Ladies will oblige us by prefixing their names with “Miss” or “Mrs.,” as the case may be. We will do our utmost to comply with the wishes of patrons to pack additions to an order, or subsequent orders, in one package, or to make reasonable changes in any order but we cannot promise to do so. During the rush of the shipping season, when many orders are received and dispatched in a day, it would, in some cases, be almost impossible to comply. No change or countermand of an order may be considered final without our written consent.

SHIPPING.—We deliver all goods to forwarders here without charge, after which our control ceases; consequently our responsibility also. We particularly caution patrons against ordering Perennial Plants and Strawberry Plants shipped by freight; they should always go by express, or in small lots by mail. Transportation charges on all goods shipped by freight or express are to be paid by the purchaser, unless by special arrangement.

PACKING is executed with the utmost care. Special pains are taken to pack lightly, thereby reducing the expense of transportation to a minimum. All goods at prices quoted are packed free. Everything is labeled.

SUBSTITUTION.—It is our custom, should the supply of a variety become exhausted (which occasionally occurs in all nurseries), to substitute in its stead a similar sort. When it is desired that we shall not do this, it must be so stated in the order. To simply affix the words “**No Substitution**” is all that is necessary.

CLAIMS, if any, should be made upon receipt of goods, when they will be carefully and cheerfully examined and, if just, all made satisfactory. Claims made after fifteen days from receipt of goods will not be entertained. We send out only good stock in good condition, carefully packed, in all cases; but success or failure depends in so large a degree upon the care and management after received, that we do not, **because we cannot**, undertake to guarantee stock to live.

GUARANTEE.—We warrant our stock true to name, with the explicit understanding that should any prove untrue, we will return the money paid or replace it with other stock; but we are not liable for damage beyond this. A sure indication of the purity of our stock is the fact that customers of former years continue to deal with us.

LOCATION.—Lovett’s Nursery is one mile from Little Silver Depot, two miles from Red Bank, forty miles from New York City and five miles from Long Branch. To reach it from New York, take the Central Railroad of New Jersey (foot of Liberty Street or 23rd Street) or the Pennsylvania Railroad (Hudson Terminal or 32nd Street and Seventh Avenue). From Philadelphia, take the Pennsylvania Railroad (Broad and Market Streets) or the Philadelphia and Reading Railroad (Bound Brook Route).

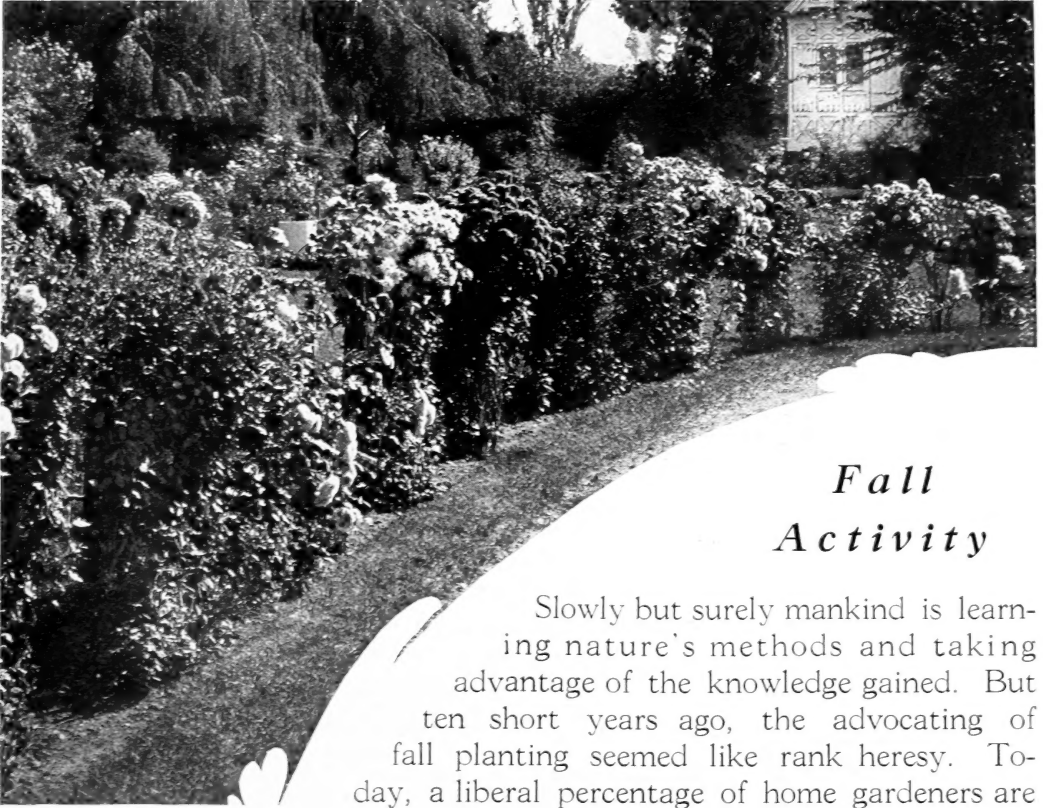

Certificate of inspection is attached to each shipment.

SHIPMENTS BY PARCEL POST

Many plants offered can be shipped to advantage by parcel post; especially to nearby points. In this catalog will be found a table of rates and of weights of such things as may be forwarded by mail, by which patrons are enabled to determine the cost for postage. In ordering shipment by parcel post, **please do not omit** to send the proper amount to cover cost of stamps, together with cost of insurance.

Should you receive two copies of this catalog, please hand one to a neighbor who is interested in Small Fruits, Trees, Roses, Hardy Flowers and Plants.

Fall Activity

Slowly but surely mankind is learning nature's methods and taking advantage of the knowledge gained. But ten short years ago, the advocating of fall planting seemed like rank heresy. Today, a liberal percentage of home gardeners are taking advantage of the unusually favorable planting conditions which fall affords.

Nature herself is in an ideal mood to assist the planter to make fall planting a successful undertaking. She has ripened the wood and foliage of nearly all the trees, shrubs and plants. She has gotten into proper condition the soil abounding with mellowness, warmth and moisture. Why not let trees, shrubs and plants you desire to set out *winter in your own grounds* rather than in the storage cellars of a nursery?

Even if you do not find time to actually set out trees, shrubs and plants where you desire them to grow, it is best to order them, heel them in, to have them on hand the first thing in the spring when you are ready to plant them into their permanent places. That is the single most important factor in favor of your ordering nursery stock in the fall—You are assured of having the plants and trees on hand *just when you want them*, something that cannot always be brought about as the result of spring orders.

Yours for spring results from Fall Action

LOVETT'S NURSERY

CHOICEST HARDY GRAPES for the HOME GARDEN

Vines will be sent by mail, if desired, provided cash is sent for postage as per table on inside back cover page.

Autumn is an excellent time for planting grapes. Plant in rows eight feet apart and the vines eight feet apart in the rows. Thousand rate of any variety promptly given upon receipt of request.

Lovett's Caco Grape

Our Caco Grape was awarded a medal by the American Institute of New York. This is the highest honor ever conferred upon a new variety by that time-honored institution.

In appearance, the most beautiful of hardy grapes; berry large, wine-red, with abundant bloom. Bunch of good size, compact and of good form. Ripens in advance of Concord; so rich in sugar it is excellent in flavor two weeks in advance of being fully ripe. Vine a very strong, vigorous grower, healthy and prolific. The fruit sells in open market, by the crate, at double the price of other varieties.

The cardinal qualities of Caco are: Extreme rich, sugary flavor, beauty of fruit beyond words to describe, and what is most important, extreme vigor of vine. To be brief, we are entirely sincere when we claim Caco to be:

The highest in quality of all hardy grapes.

Equals in high quality and melting texture the finest varieties grown under glass.

The most beautiful of all hardy grapes.
Red and amber overlaid with beautiful bloom.

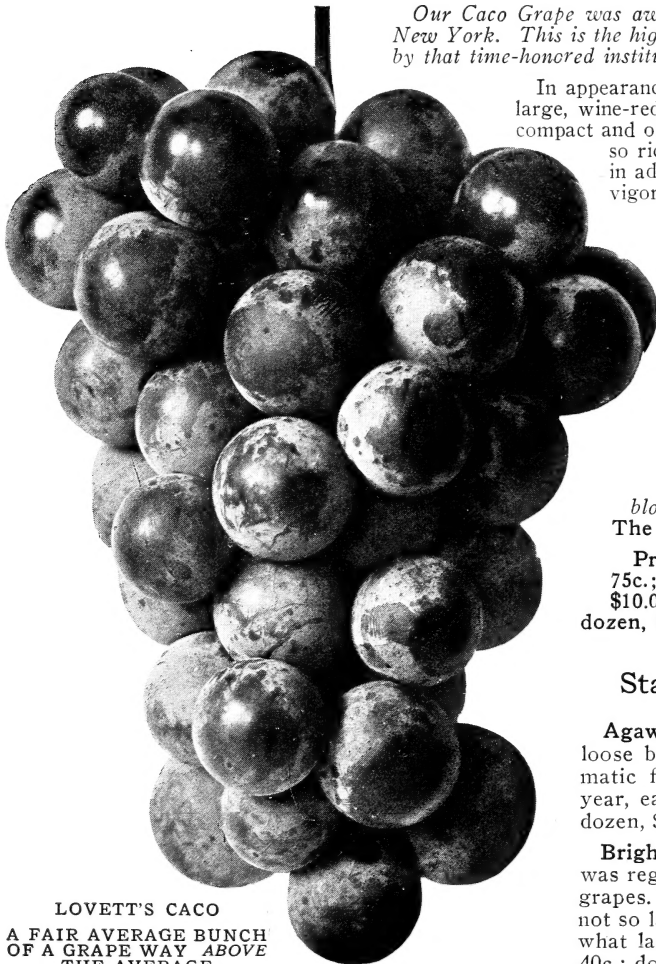

The strongest in growth of all hardy grapes.

Prices of Caco Grape Vines 1 year, each, 75c.; dozen, \$7.50. 2 years, each, \$1.00; dozen, \$10.00. Heavy, fruiting age vines, each, \$2.00; dozen, \$20.00

Standard Sorts of Sterling Merit

Agawam.—Deep red, almost maroon. Large, loose bunch, berries large, meaty, with rich, aromatic flavor. Ripens a little after Concord. 1 year, each, 30c.; dozen, \$3.00. 2 years, each, 40c.; dozen, \$4.00.

Brighton.—Until the introduction of Caco, this was regarded as the highest in quality of all hardy grapes. The berries are wine-red, like Caco, but not so large, while the bunch, if anything, is somewhat larger. Ripens in midseason. 1 year, each, 40c.; dozen, \$4.00. 2 years, each, 50c.; dozen, \$5.00.

LOVETT'S CACO
A FAIR AVERAGE BUNCH
OF A GRAPE WAY ABOVE
THE AVERAGE

HARDY GRAPES—

Continued

CHAMPAGNE

One of the finest of grapes and particularly useful for home gardens. A very strong grower, practically immune to attacks of fungus disease. So hardy that it has never been known to be winter killed. Produces immense crops of amber colored grapes. Bunches are of medium size, individual berry very large. It is of extra high quality and so free in sugar that "in the old days" a delicious wine was made from this variety without the addition of any sugar. This variety is splendid for eating out of hand, or for the making of Grape Juice or Wine. 1 year, each, 50c.; dozen, \$5.00. 2 years, each, 75c.; dozen, \$7.50.

CHAMPAGNE GRAPES

CAMPBELL'S EARLY.—A superb early ripening black grape. Produces extra large bunches of fruit that is not only attractive in appearance, but of superb quality. This variety, because it is lacking in pollen, should be planted reasonably near some variety that is free in pollen. We recommend the variety Diamond for this purpose. 1 year, each, 50c.; dozen, \$5.00. 2 years, each, 75c.; dozen, \$7.50.

CONCORD.—Undoubtedly the best known and most popular variety in America. It succeeds practically everywhere and has made fortunes for many commercial growers. Its large black berries are borne in large, well shouldered bunches, and covered as they are with a decided bloom, they make a most attractive appearance. Of good quality, in fact, in every way a desirable sort. 1 year, each, 20c.; dozen, \$2.00; 100, \$10.00; 1,000, \$75.00. 2 years, each, 25c.; dozen, \$2.50; 100, \$15.00; 1,000, \$100.00. Heavy fruiting age vines, each, 75c.; dozen, \$7.50.

Delaware.—An old-time red variety. Bunch and berry small, refined, high quality. Prolific, but a rather weak grower and somewhat subject to mildew. 1 year, each, 40c.; dozen, \$4.00. 2 years, each, 50c.; dozen, \$5.00.

Diamond (Moore's).—A reliable white grape. Bunches large and compact. Berry large, greenish white, juicy and of good quality. A vigorous grower and prolific. Ripens early. 1 year, each, 40c.; dozen, \$4.00. 2 years, each, 50c.; dozen, \$5.00. Heavy fruiting vines, each, \$1.00; dozen, \$10.00.

GREEN MOUNTAIN.—The earliest white grape. Bunch small to medium in size, berries rather small, greenish white, thin skinned, tender, sweet, juicy and vinous, with delightful, sprightly and refined flavor. Ripens very early. This is a splendid variety. 1 year, each, 75c.; dozen, \$7.50. 2 years, each, \$1.00; dozen, \$10.00.

Moore's Early.—The most reliable very early variety and is proving immensely profitable to commercial growers. Medium bunch, berry large, jet black with purple bloom, ripens fully two weeks earlier than Concord. 1 year, each, 25c.; dozen, \$2.50; 100, \$15.00. 2 years, each, 40c.; dozen, \$4.00; 100, \$20.00. Heavy fruiting vines, each, 75c.; dozen, \$7.50.

Niagara.—The most popular white grape. Cluster large and compact; berry large, amber white with white bloom, thin skinned, tender pulp, sweet and luscious. Ripens in midseason with Concord. 1 year, each, 30c.; dozen, \$3.00; 100, \$20.00. 2 years, each, 40c.; dozen, \$4.00; 100, \$25.00. Heavy fruiting vines, each, \$1.00; dozen, \$10.00.

Worden.—A black grape that resembles Concord closely, but with more tender pulp, higher quality, and ripens a week to ten days earlier. It is also a little larger in both bunch and berry than the Concord. 1 year, each, 25c.; dozen, \$2.50; 100, \$15.00. 2 years, each, 40c.; dozen, \$4.00; 100, \$22.00. Heavy fruiting vines, each, \$1.00; dozen, \$10.00.

Grow More Grapes and Still More Grapes—and Start with Lovett's Fruiting Age Vines

Three years ago we foresaw the immense increase in popularity which grape growing would enjoy. So we set aside several acres of the best land in our Nurseries and planted them with grape vines—of the good varieties, with thousands of plants. These are now heavily rooted, strongly caned specimen plants, some of which have borne small clusters this past year in the nursery row. They will do well for you next year, if planted this fall.

CONCORD GRAPE

BIGGER, BETTER BLACKBERRIES

When requested, plants will be sent by mail, provided cash is sent for postage as per table.

In field culture, plant in rows from five to seven feet apart (according to the vigor of the variety) and three feet apart in the rows. In the garden, plant in rows five feet apart and the plants three feet apart in the rows.

Our blackberry plants are either root-cutting plants that have been grown from pieces of roots in nursery rows, or they are heavily rooted transplanted plants. Both are far superior to ordinary or sucker plants.

We believe we have this season the finest and largest supply of root-cutting and transplanted blackberry plants of any concern in the United States.

JOY BLACKBERRY

Unites superlative quality, iron-clad hardiness and great productiveness.

This "best of all" variety was introduced by us ten years ago and is rapidly superseding all other sorts. Joy may be briefly described as follows: Canes of stocky, vigorous habit (so stout and strong it needs no staking), with abundant large five-fingered leafage; yields very heavily every year and all the canes are loaded with fruit. We have never known any other variety, either Blackberry or Raspberry, with such an inherent propensity to bear fruit as the Joy Blackberry.

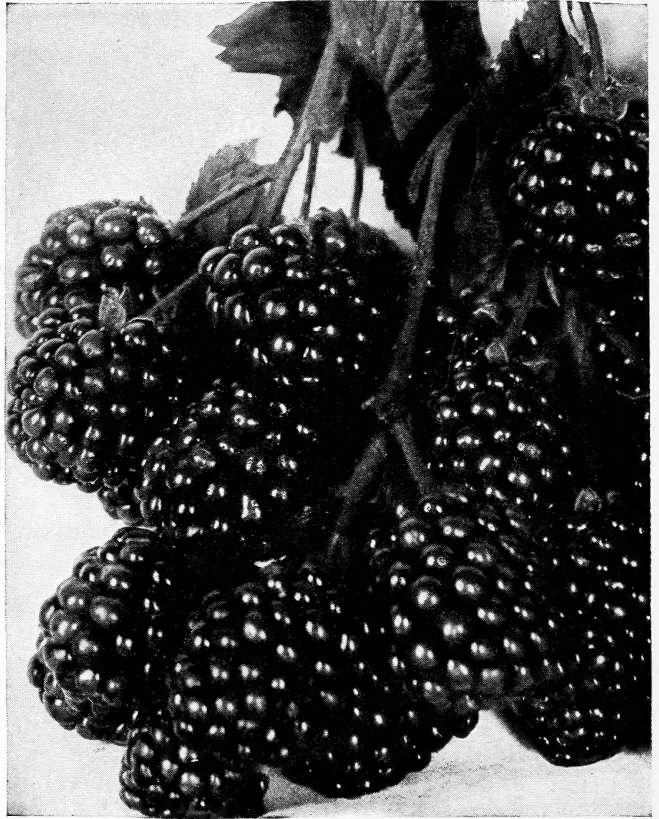

It has endured a temperature of twenty-four degrees below zero unharmed; and is apparently immune to "Orange Rust," "Double Blossom" and all other diseases of the Blackberry.

The berries are large and almost as thick through as they are long—a characteristic of the variety—and are coal black. In rich, luscious flavor, it surpasses almost all other Blackberries. It is not an early variety, ripening in midseason; with Ward and Blowers.

Joy has more than "made good," as it has proved beyond a shadow of a doubt to be the **finest and the best Blackberry** for American growers as yet offered, both for commercial growers and for the home garden.

Selected root-cutting plants, dozen, \$1.50; 100, \$7.50. Transplanted plants, dozen, \$2.00; 100, \$10.00.

Blowers.—A variety which possesses the quadruple valuable qualities of large size, productiveness, absolute hardiness and very prolonged season of fruiting. Under high culture on fertile soil, the canes often attain a growth of from ten to twelve feet if kept untrimmed. It yields very heavily for a long season beginning in midseason. The fruit is not only large and attractive, but of superb quality. Twenty

JOY BLACKBERRIES

degrees below zero has not harmed it and it has yielded at the rate of 280 bushels per acre.

R. C. plants, dozen, \$1.00; 100, \$5.00; 1,000, \$45.00. Transplanted, dozen, \$1.50; 100, \$7.50.

BUSHEL BERRY.—In growth it resembles Star or Wonder, but it appears to be somewhat more vigorous, hence, in common with that variety, needs stakes or trellises for support. Though a record of a bushel of fruit per plant may seem phenomenal, we know this variety to hold this record, on an acre patch. R. C. plants, dozen, \$1.50; 100, \$7.50. Transplanted, dozen, \$2.00; 100, \$10.00.

EARLY HARVEST.—An old variety and a favorite especially with western and southwestern growers. The mild, sweet berries are rather small but firm and symmetrical. Ripens very early; sometimes suffers from winter injury in the North. R. C. plants, dozen, \$1.00; 100, \$4.50; 1,000, \$40.00.

Eldorado.—The excellent flavor and extreme hardiness of this variety are notable. Because of both of these qualities it is extremely popular, especially throughout the North and Northwest. Among its other good points might be mentioned its early and rather long season of fruiting; its healthy and vigorous growth and the attractiveness of its fruit, which, though of but medium size, is jet black, of good regular form and is mild, sweet and melting.

R. C. plants, dozen, \$1.00; 100, \$4.50; 1,000, \$40.00. Transplanted, dozen, \$1.25; 100, \$6.00.

BLACKBERRIES—Continued

HIMALAYA.—Almost a climber, with extremely long canes, which grow best over stakes or an arbor. The berries are small, but of sweet, brisk flavor. Transplanted plants, dozen, \$1.50; 100, \$8.00.

Iceberg.—Unquestionably the best white blackberry as yet produced. Clusters of the white, translucent berries are borne very profusely in midseason and are both sweet and tender. It is not as hardy as some of the black varieties. As the blossoms are lacking in pollen, it should be planted near some black fruiting variety in order to yield freely.

R. C. plants, dozen, \$1.00; 100, \$5.00. Transplanted plants, dozen, \$1.50; 100, \$7.50.

Kenoyer.—Ripens very early, with us by July 1st. It is hardy and produces berries of excellent quality, though not very large. It is probably the best extra early variety.

R. C. plants, dozen, \$1.00; 100, \$4.50. Transplanted plants, dozen, \$1.25; 100, \$6.00.

La Grange.—Unlike other varieties, the fruit of La Grange ripens in the shade and is, therefore, of superior quality. It begins to ripen early in July and continues for four or five weeks, yielding heavily. In addition to the extreme hardiness of its canes, it is a very valuable variety by reason of its large yield, early ripening, long season of fruiting, and particularly the fine size and superb quality of its fruit.

R. C. plants, dozen, \$1.00; 100, \$5.00. Transplanted plants, dozen, \$1.50; 100, \$7.50.

Macatawa.—This, by many growers, is classed as an everbearing sort because of its very long season of fruiting. For many weeks it produces fruit which is sweet, almost seedless and entirely coreless. The plants are strong, upright growers, tremendously prolific and extremely hardy.

R. C. plants, dozen, \$1.00; 100, \$5.00; 1,000, \$45.00. Transplanted plants, dozen, \$1.50; 100, \$7.50.

Mersereau.—This is another extremely hardy variety, it having originated in northwestern New York. Great size, luscious flavor, great hardiness, great productiveness and unusual freedom from "Orange Rust" and other diseases are combined in this one variety.

R. C. plants, dozen, \$1.00; 100, \$5.00. Transplanted plants, dozen, \$1.25; 100, \$6.00.

STAR OR WONDER.—This is indeed a wonder. Imagine picking great clusters of Blackberries from canes that resemble grape vines. This is what you can do if you plant the Star Blackberry. The yield is so great that over eighty quarts of berries have been picked from a single plant of it in one season.

Should be trained to stakes or trellis or over an arbor, as grapes are grown, and given plenty of room.

Berries are of medium size, attractive appearance and rich, sprightly, luscious quality; keep in good condition for a long time and can be safely shipped almost any distance. Ripens very late.

R. C. plants, dozen, \$1.00; 100, \$5.00. Transplanted plants, dozen, \$1.25; 100, \$6.00.

Taylor.—We consider this by far the best variety fruiting late in the season. Its berries of good size and its sureness to produce a good crop annually recommend it for both home and market growing.

R. C. plants, dozen, \$1.00; 100, \$4.50; 1,000, \$38.00. Transplanted plants, dozen, \$1.25; 100, \$6.00.

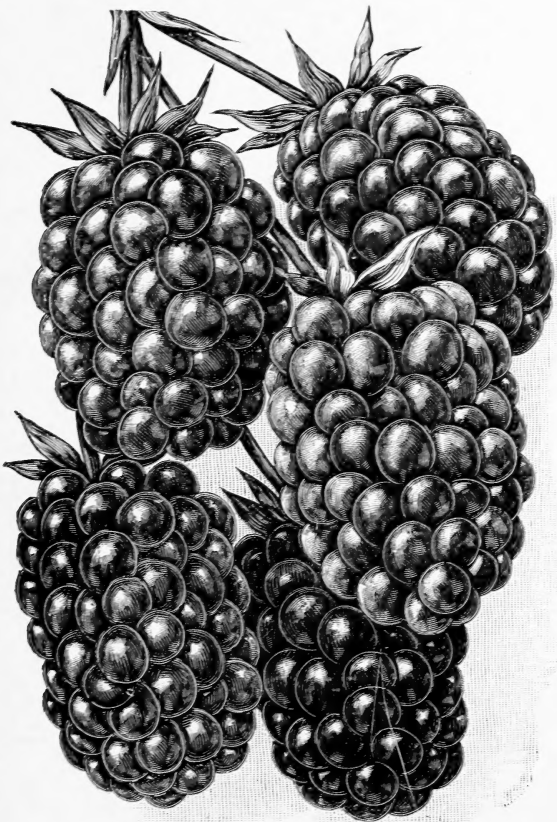

TEXAS EVERBEARING

See illustration alongside. This variety, brought from Africa by a Mr. Texas, is in many respects exceptional and beyond compare. Bearing continuously from early August until late autumn, it is truly an everbearing sort. During its entire season its strong canes are prolific in their production of jet black, sweet, juicy berries, which are without core and often measure an inch and a half in diameter.

R. C. plants, dozen, \$1.00; 100, \$5.00; 1,000, \$40.00. Transplanted, dozen, \$1.50; 100, \$7.50; 1,000, \$60.00.

WARD.—A grand blackberry. A descendant of the once famous Kittatinny and the most popular variety in New Jersey at the present time. The canes are of strong growth, hardy, and yield a heavy crop of large, handsome berries of first quality annually that always command the top price in market. It is a reliable variety and an excellent one for the home garden.

R. C. plants, dozen, \$1.00; 100, \$5.00; 1,000, \$40.00. Transplanted plants, dozen, \$1.25; 100, \$6.00.

TEXAS—A Berry Beyond Compare

Delicious RASPBERRIES Next Summer From Plants Set Out This Fall

Plants will be sent by mail if desired, provided cash is sent for postage, as per table. Autumn is the best season of the year for planting Raspberries (excepting tip plants).

In field culture, plant in rows six feet apart and the plants three feet distant in the rows; requiring 2,420 plants per acre. The cap varieties, however, should be planted in rows seven feet apart and the plants three and one-half feet distant in the rows. In the garden, plant all varieties four feet apart each way.

ST. REGIS EVERBEARING OR RANERE

St. Regis is unquestionably, all things considered, by far the most valuable variety of Raspberry that has appeared within the last quarter of a century. Introduced by us in 1910, it has, by sheer merit, forged ahead of all others until it now stands at the top of the list of red varieties. The bright red berries, though not as large as some, are of fine quality and are produced in tremendous quantities not only in early summer (it ripens the earliest of all), but also throughout the fall and right up until freezing weather. In addition to being extremely hardy and drought-resistant, it thrives on hot sandy soil where most other sorts could not possibly succeed. Unlike most other Raspberries, it yields a moderate crop of berries the first season if planted in autumn or early spring.

The St. Regis sends up suckers or young plants excessively, and unless these are kept down (to a single row of plants or three to four plants to the hill) with hoe or otherwise, treating the surplus ones as weeds, the crop of fruit will be small, both in quantity and size of the berries.

Selected sucker plants, dozen, \$1.00; 100, \$3.50; 1,000, \$30.00. Transplanted plants, dozen, \$1.50; 100, \$6.00; 1,000, \$50.00. Heavy fruiting plants, dozen, \$3.00; 100, \$15.00.

LA FRANCE

A giant in every way, producing immense crops of immense fruits from July until frost.

The late crops (when the fruit is most highly prized) are heavier than the early ones. The fruit is borne on racemes, one to three feet long, and the same raceme will show the remarkable sight of buds, blooms, fruit just setting, green berries, and the ripened fruit. The berries are deep pink, juicy and of delicious flavor. The fully developed fruits are about twice as large as the average.

Extra selected sucker plants, dozen, \$5.00; 100, \$40.00.

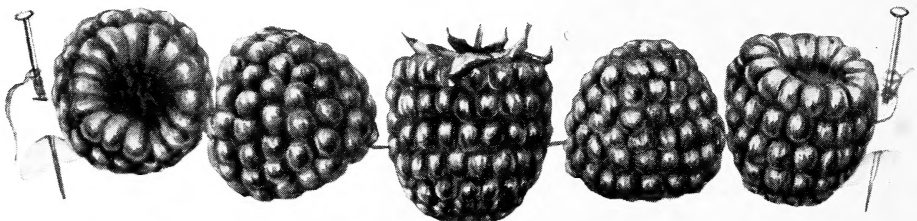

GOLDEN QUEEN.—Introduced by us in 1885. A sport of the Cuthbert and similar to it in all respects except color, which is a clear amber. Of luscious quality and a valuable variety for the home garden. Though not red, we class this with the red varieties, as it is of the same habit and requires the same culture.

Sucker plants, dozen \$1.00; 100, \$7.50.

WHITE QUEEN (Everbearing)

A beautiful white-fruited everbearing variety which in some respects is actually an improvement upon St. Regis; its fruit is larger and its quality simply superb. Served with a red-fruited variety, it is surely a delight to the eye and a real treat to the inner man.

Selected sucker plants, dozen, \$3.50; 100, \$25.00.

ST. REGIS—New Jersey's Mortgage Lifter

ERSKINE PARK RASPBERRIES

RASPBERRIES—Cont'd

RED RASPBERRIES

General List of Varieties

CUTHBERT.—Introduced by us in 1878 and still popular. Berries of large size, deep crimson, moderately firm and of high quality. Ripens in midseason.

Sucker plants, dozen, 75c.; 100, \$3.50; 1,000, \$30.00. Transplanted plants, dozen, \$1.25; 100, \$6.00.

ERSKINE PARK (Everbearing).—A giant in growth and size of fruit. It should not be planted too far south nor on soil too light. As it is frequently lacking in pollen, plant a few of the variety St. Regis near it. For best results, cut canes down to within a few inches of the ground each spring.

Selected sucker plants, dozen, \$1.00; 100, \$5.00; 1,000, \$40.00. Transplanted plants, dozen, \$1.50; 100, \$8.00. Extra heavy fruiting age plants, dozen, \$3.00; 100, \$15.00.

KANSAS BLACK RASPBERRIES

KEVITT'S HYBRID.—Unquestionably among the hardiest of all. Continues bearing for fully four weeks, beginning middle of June.

Selected sucker plants, dozen, \$1.50; 100, \$7.50. Heavy transplanted plants, dozen, \$2.50; 100, \$12.00.

KING.—Extra early. Of bright color, firm and of excellent quality.

Sucker plants, dozen, \$1.00; 100, \$5.00. Transplanted plants, dozen, \$1.50; 100, \$7.50.

OHTA.—An extremely hardy, vigorous growing sort bearing beautiful scarlet firm berries. Has fall-bearing tendencies.

Sucker plants, dozen, \$1.00; 100, \$5.00. Transplanted plants, dozen, \$1.50; 100, \$7.50.

WELCH.—A midseason variety of extra large size, bright crimson, melting and luscious; the finest in quality of any offered.

Sucker plants, dozen, \$1.00; 100, \$5.00. Transplanted, dozen, \$1.50; 100, \$7.50.

CAP RASPBERRIES

IMPORTANT.—These are propagated by rooting the tips of the canes, and young plants are very difficult to make live when planted in the autumn. It is with pleasure that we offer transplanted plants to all these varieties. They are large and strong and are certain to live when planted in the fall.

Price, all varieties transplanted plants, dozen, \$1.50; 100, \$7.50.

COLUMBIAN

A giant "purple cap" sort, quite distinct from either the red-fruited or black-cap varieties. Of high quality and excellent for making jelly and jam. Succeeds even in the South. One of the very best for the home garden. Ripens in midseason, continuing quite late.

CUMBERLAND.—Produces the largest berries of any blackcap that we have ever grown. Jet-black berries, of superb quality.

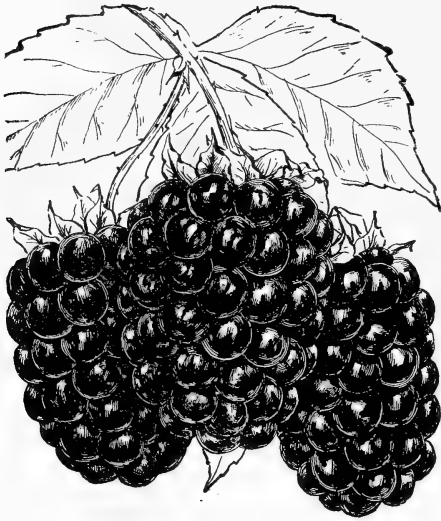

HONEY SWEET

Not only are the berries of superb flavor, but they are firm enough for distant shipment. They are also of attractive appearance, jet black, without bloom, and of good size. Matures its entire crop quickly in midseason.

KANSAS—Exceedingly prolific of large jet-black berries, which are firm, sweet and excellent.

PLUM FARMER.—Large, of meaty texture and very firm; black with a grayish cast and of highest quality.

SCARFF.—A seedling of the once popular Gregg. Almost as large as Cumberland. Absolutely hardy and a vigorous grower.

DEWBERRIES—A Delight to the Palate

“Lovett’s for Small Fruits”

DEWBERRIES

Plants will be sent by mail, provided cash is sent for postage as per table on third cover.

If to be staked, plant in rows four feet apart each way; if to be mulched, plant in rows six feet apart and the plants three feet apart in the rows.

Austin’s Improved.—The very first of the blackberry family to come into bearing. The vigorous, prolific vines produce large, nearly round berries of good quality.

R. C. plants, dozen, 75c.; 100, \$4.00. Transplanted plants, dozen, \$1.00; 100, \$6.00.

Lucretia.—The fruit of this variety equals in size and quality that produced by the best of the upright growing varieties of blackberry and is produced earlier than any of the latter. It can be successfully grown upon any soil that is well drained. Very firm, quite long berries of large size, attractive in appearance and of high quality are produced in large quantities. The vines, of slender trailing habit, are hardy except at the far North.

R. C. plants, dozen, 75c.; 100, \$4.00. Transplanted plants, dozen, \$1.00; 100, \$6.00.

LOGANBERRY

The great merits of this unique fruit are now well known. The berries are of great size—equaling large blackberries, and are deep reddish maroon in color. In flavor, they are rich and sprightly—a mingling of the raspberry and blackberry, the raspberry predominating, mellow and refined, yet distinct from either—melting and without core. The flavor is so luscious, novel and rich, the berry cannot fail to please everybody as a dessert fruit. For canning it is superior to all the other small fruits, and for jellies and jams it has no equal. The canes are of strong, vigorous growth, semi-trailing in habit. What gives special value to this novel fruit is its earliness—ripening as it does at the close of the strawberry season, and in advance of all but the very earliest raspberries.

Heavy transplanted plants, dozen, \$5.00; 100, \$35.00.

LOGANBERRIES—The Earliest to Ripen

STRAWBERRY-RASPBERRY

Of herbaceous habit and truly “everbearing,” producing great quantities of most attractive sparkling crimson berries from early in July until frost. In the fresh state the fruit lacks flavor, but when cooked, especially when mixed with other Raspberries, it is delicious.

Dozen, \$1.50; 100, \$8.00.

WINEBERRY

WINEBERRY

This decidedly unique and valuable variety is a strong rampant grower; the canes are thickly covered with purplish red hairs. Berries of medium size, the color of sherry wine, sparkling, with a brisk, pleasant sub-acid flavor. Canes of strong growth, as hardy as an oak, and yield enormously for a long season. Excellent as a dessert fruit, but especially valuable for canning and for making a delicious wine.

Heavy transplanted plants, dozen, \$2.50; 100, \$15.00.

STILL TIME TO START THAT STRAWBERRY BED

PLEASE NOTE.—We offer in this catalog pot-grown strawberry plants only. Heavily rooted sturdy plants, as illustrated alongside, representing the kind we ship, may be planted any time up to October 15th, will take root quickly and bear larger crops of better berries than can be expected of layer plants which we do not recommend for fall planting.

For hill culture in the family garden, plant in rows two feet apart and the plants a foot apart in the rows, cutting off all runners as they appear. If to grow in matted rows, set rows three feet apart and plants one foot apart in the rows.

All the varieties offered have perfect flowers so do not need the association of another variety to be fruit fuel.

For complete description of *June bearing* Strawberries, please consult our Catalog No. 108.

FALL-BEARING STRAW- BERRIES

Price, except as noted, pot-grown plants, dozen, \$1.25; 100, \$7.50.

Advance.—Much like Superb, but with larger fruit.

CHAMPION EVERBEARING.—Apparently a seedling of Superb, and like it in many respects, though it is much more productive and the fruit is larger. Dozen, \$1.50; 100, \$9.00.

COME TO RECOGNIZED HEADQUARTERS FOR
POT-GROWN PLANTS

Forward.—Produces good fall crops of high quality berries.

Francis.—Very similar to Progressive, but is even more fruitful.

Ideal.—This is, with us, one of the very best.

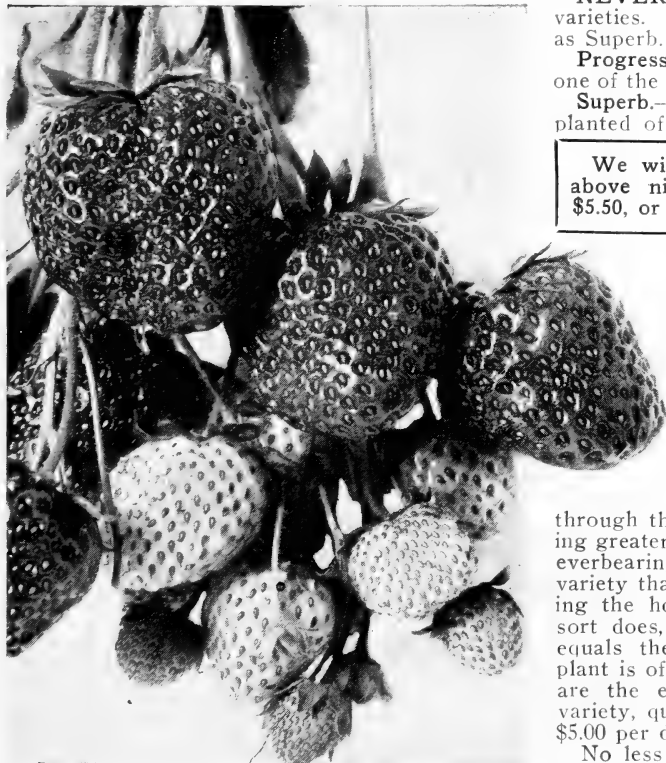

LUCKY BOY.—Among the biggest, sweetest, and most productive everbearing strawberries as yet produced. Dozen, \$1.50; 100, \$9.00.

NEVER FAIL.—One of the most promising varieties. Said to be three times as productive as Superb. Dozen, \$1.50; 100, \$9.00.

Progressive.—Bears two large crops a year; one of the most prolific of the fall bearers.

Superb.—The best known and most largely planted of the fall-bearing varieties.

We will send a half dozen each of the above nine varieties (all pot-grown) for \$5.50, or a dozen of each for \$10.00.

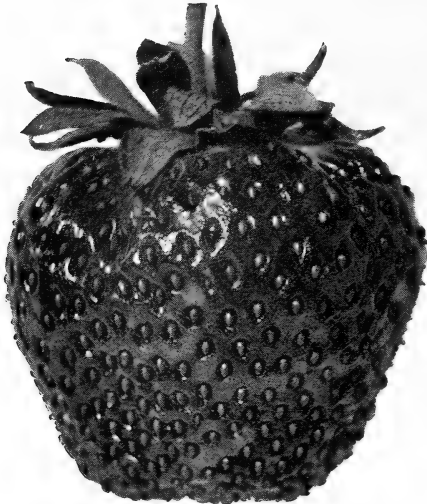

Lovett's All Season

The nearest approach to berry perfection yet attained

We truly believe this is the most valuable Strawberry ever offered. We named it **Lovett's All Season** because for the first time we have a truly everbearing variety, truly bearing all season. It begins in June, and continues to bear large quantities right through the summer and fall, the fall crop being greater by far than that of any of the other everbearing varieties. We know of no other variety that will produce the crop of fruit during the hot, dry summer months which this sort does, while in size, the individual berry equals the best of the June varieties. The plant is of strongest constitution. The berries are the equal in size of any June bearing variety, quality is up to the highest standard. \$5.00 per dozen; \$35.00 per hundred.

No less than a half dozen will be supplied, since no correct judgment can be formed with a lesser number of plants.

LUPTON

JOHN H. COOK.—In some properties this is the finest of all the wonderful Van Fleet Hybrids. It is an enormous cropper, ripening with the second early varieties. The berries are of quality.

Dozen, \$1.50; 100, \$8.00.

Judith.—Large, pointed berries of uniformly deep red color, borne in greatest abundance during a long season. Bears early. Of finest flavor.

Dozen, \$1.25; 100, \$7.50.

Lupton.—Very much like Gandy, but more productive and about five days earlier.

Marshall.—Midseason. Very popular throughout the New England States and New York. Of high quality and fine in every way.

McKinley.—Of high quality. Midseason.

New York.—Midseason. So much like Marshall as to be practically identical.

Nick Ohmer.—Attractive large berries of superlative quality. Midseason to late.

PEARL.—It is, all things considered, the best of the very late fruiting varieties. Extra large, of fine quality.

Dozen, \$1.50; 100, \$8.00.

Premier.—One of the very best extra early. Very productive and of high quality.

ROYAL SOVEREIGN.—Probably the most popular variety ever introduced for forcing under glass.

Dozen, \$2.00; 100, \$12.00.

ST. MARTIN.—Very large sort holding its size right through the season. We call it an **Improved Marshall**.

Dozen, \$1.50; 100, \$8.00.

Senator Dunlap.—Early to midseason. Probably the most productive variety yet introduced. Fruit not very large, but good.

Sharpless.—Fruits late in the season. A good grower, producing handsome berries.

Stevens' Late Champion.—One of the most prolific and valuable of the late varieties.

Success.—One of the very best early varieties for the home garden and nearby market.

William Belt.—An "all season" variety, fruiting from early to quite late. Very popular.

LOVETT'S POT-GROWN STRAWBERRIES, Continued

Following will be found brief descriptions of the various varieties. For more complete descriptions and cultural directions, see our Catalog No. 108. It is free.

Price, except as noted, dozen, \$1.00; 100, \$6.00.

Barrymore.—Midseason to late. A fine large dark crimson berry of high quality.

Brandywine.—Midseason. Produces large bright crimson berries of high quality.

BUSHEL BASKET.—Midseason. Winner of the Barry Gold Medal. A giant in both plant and fruit. Dozen, \$1.50; 100, \$8.00.

California.—A heavy bearer of large berries of finest flavor and aroma. Plants hardy and disease resistant.

Dozen, \$1.25; 100, \$7.50.

Campbell's Early.—The berries are bluntly conical, firm and bright crimson in color.

Chesapeake.—A splendid midseason to late sort. Dozen, \$1.25; 100, \$7.50.

Collins.—As it's between midseason and late, it is most valuable to maintain an uninterrupted supply.

Dozen, \$1.25; 100, \$7.50.

EARLY JERSEY GIANT.—The earliest variety producing large fruit and by far the best. Of extra high quality, and extremely productive. Dozen, \$1.25; 100, \$7.50.

Eaton.—Promises to prove one of the best midseason sorts. Produces vast crops of very dark rich fine flavored berries.

Dozen, \$1.25; 100, \$7.50.

EDMUND WILSON.—A giant in both plant and fruit. Of superb quality. Fruit very dark. Midseason.

Dozen, \$1.50; 100, \$8.00.

Gandy.—Very firm; of only fair quality, but decidedly attractive in color and shape.

Glen Mary.—An extremely productive midseason sort of extra high quality. Should be planted near some good pollinizer, such as Joe.

Howard No. 17.—A remarkably strong growing second early. Berries large, beautiful and of superlative quality.

Hundred Dollar.—A splendid midseason variety. Produces very large light scarlet berries of high quality.

Joe.—This strawberry ripens just after the Chesapeake; equals it in size, firmness and yield; surpasses it in color and flavor, but unlike it, succeeds upon almost all soils.

EARLY JERSEY
GIANT

CURRENTS

When desired, plants will be forwarded by parcel post, provided cash is sent for postage as per table.

A cool, moist location is best for these fruits, and for this reason they succeed admirably when planted by a stone wall or fence, being benefited by partial shade. Keep the ground mellow and free of weeds and grass, using fertilizer copiously. Mulching is necessary for the best returns. Plant in rows four feet apart and the plants set three feet apart in the rows.

Boskoop Giant.—By far the best of the black fruited varieties. The fruit is often more than a half inch in diameter and is of rich, sweet flavor. A strong grower and early. 1 year, each, 40c.; dozen, \$4.00. 2 years, each, 50c.; dozen, \$5.00.

Cherry and Versailles.—Large berries, short clusters, bright sparkling crimson; of sharp and acid flavor. 1 year, each, 30c.; dozen, \$3.00. 2 years, each, 40c.; dozen, \$4.00.

Everybody's.—Bunch and berry of large size, clear, bright sparkling red and of excellent quality; ripens in midseason and continues for a long time. The variety has been fully tested for many years and has proved to be superior to all others as a cropper of fine fruit. Indeed, that is why we named it "Everybody's," because everybody can grow it with success. 1 year, each, 40c.; dozen, \$4.00. 2 years, each, 50c.; dozen, \$5.00.

Fay's Prolific.—Bunch and berry large, bright and sparkling. A regular and prolific bearer. 1 year, each, 30c.; dozen, \$3.00. 2 years, each, 40c.; dozen, \$4.00.

North Star.—The old red Dutch currant greatly improved and one of the finest in quality. Berries bright red, rather small, but the clusters are long and are produced in wonderful profusion. 1 year, each, 30c.; dozen, \$3.00. 2 years, each, 40c.; dozen, \$4.00.

Perfection.—Produces in great profusion large, long clusters of very large, bright red berries, of mild, splendid quality. 1 year, each, 40c.; dozen, \$4.00. 2 years, each, 50c.; dozen, \$5.00.

Pres. Wilder.—Produces late in the season very large bright red berries that are juicy and of high quality. 1 year, each, 30c.; dozen, \$3.00. 2 years, each, 40c.; dozen, \$4.00.

WHITE GRAPE CURRENTS—No Better in its Class

CURRENTS, Continued

Red Cross.—This is reputed to be the sweetest of all Currants. It is an exceptionally healthy and vigorous grower. Produces immense crops of good size sparkling red berries in large clusters. 1 year, each, 30c.; dozen, \$3.00. 2 years, each, 40c.; dozen, \$4.00.

Victoria.—The best late variety. Bunches long, berries of medium size, pale red and of superior quality. 1 year, each, 30c.; dozen, \$3.00. 2 years, each, 40c.; dozen, \$4.00.

White Grape.—By far the best of the white fruited sorts. It is a beautiful translucent white, of mild, good quality. 1 year, each, 40c.; dozen, \$4.00. 2 years, each, 50c.; dozen, \$5.00.

GOOSEBERRIES

Carrie.—A marvel of productiveness, a splendid grower. When fully ripe it is a very attractive maroon color; the berries are rather small, but of excellent quality. 1 year, each, 30c.; dozen, \$3.00. 2 years, each, 40c.; dozen, \$4.00. Heavy fruiting size, each, 75c.; dozen, \$7.50.

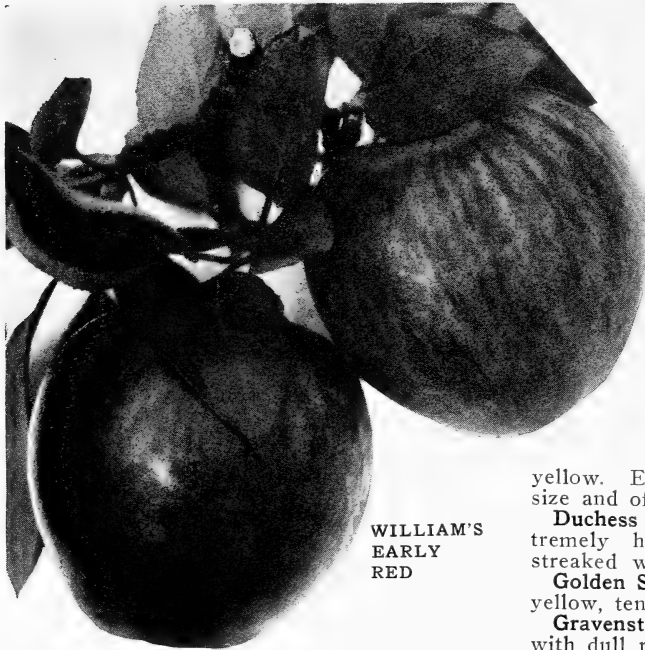

Downing.—The most popular market variety. The pale green berries are of large size and fair quality. 1 year, each, 35c.; dozen, \$3.50. 2 years, each, 50c.; dozen, \$5.00.

Oregon Champion.—Entirely distinct, of slender, willow growth, not a very strong grower. The berries when fully ripe are pale amber, of excellent quality and of good size. 1 year, each, 50c.; dozen, \$5.00. 2 years, each, 65c.; dozen, \$6.50.

PLEASE NOTE.—It is not permissible for New Jersey nurserymen to ship Currants or Gooseberries into the following states: Washington, Oregon, California, Idaho, Nevada, Montana, Wyoming, Utah, Colorado, Arizona, New Mexico, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Minnesota, Tennessee, North Carolina, Maryland, New Hampshire, Delaware, Maine and Massachusetts. The states of Illinois, Pennsylvania, New York and Rhode Island prohibit the shipment of Black Currants from New Jersey.

OREGON CHAMPION—A Winner for Quality

WILLIAM'S
EARLY
RED

The Peer of Summer Apples.

THE LOVETT

After having thoroughly tested this remarkable variety for a period of ten years, we consider it to be:

Finer in quality and texture than any other summer fruiting variety. The most beautiful apple we have ever seen. As strong a grower as we have ever seen.

It ripens with us the early part of August and when ripe is fully up to McIntosh in quality (to be frank, we like it better); it is also of better color than McIntosh, being a brighter red. The fruit is above the average in size. We believe Lovett is destined to become a most popular summer apple. Each, \$2.00; dozen, \$20.00.

OTHER WORTH-WHILE APPLES

Rome Beauty.—Winter. Mostly red, with some yellow; excellent keeper; reliable.

Roxbury Russet.—Early winter. Of medium size, crisp, juicy, hardy and a good keeper.

Stayman's Winesap.—Winter. Deep purple red; high quality, prolific.

Tolman's Sweet.—Winter. Pale yellow tinged with red. Rich and very sweet.

Wealthy.—Popular fall apple. Bright red striped; of fine quality. Perfectly hardy.

William's Early Red.—Early summer. Rapidly gaining in popularity. In shape it is quite similar to the variety Delicious.

YELLOW TRANSPARENT.—Early summer. Creamy yellow with smooth waxen skin.

YORK IMPERIAL (Johnson's Fine Winter).—Medium to large; greenish yellow, nearly covered with bright red; flesh firm and juicy.

CRAB APPLES

Plant 30 feet apart each way.

First-class trees, each, \$1.00; dozen, \$10.00.

Hyslop's.—Large, deep crimson.

Transcendent.—Red and yellow.

FRUIT TREES

Our fruit trees are far too large to be shipped by parcel post. Small lots should go by express, larger quantities by freight.

APPLES

Plant 30 feet apart each way.

Price, except as noted, first-class trees, each, \$1.00; dozen, \$10.00; 100, \$75.00.

Baldwin.—Early winter. Dark red, of high quality; very popular.

Banana (Winter Banana).—Late fall. Waxen yellow with blush cheek, large, very beautiful, of highest quality. Very valuable.

Delicious.—Early winter.

Red, with more or less deep yellow. Early and profuse bearer. Of good size and of the finest quality.

Duchess (Oldenburg).—Early autumn. Extremely hardy. Of medium size, yellow, streaked with red. Very productive.

Golden Sweet.—Early summer. Large, pale yellow, tender and sweet.

Gravenstein.—Large, yellow, nearly covered with dull red, rich, crisp, sub-acid; profitable. September and October.

Grime's Golden.—The golden yellow fruit, which is of medium size, matures in early winter and is simply delicious.

Jonathan.—Late winter. Fruit very round, of medium size, skin yellow, nearly covered with a lively red; fine grained and of fine flavor, but quite acid.

McIntosh.—Autumn. A most beautiful apple of extra high quality. Deep red in color, of large size and a splendid keeper.

Red Astrachan.—Large, crimson; flesh white, of a rich acid flavor. August.

Rhode Island Greening.—Large; yellowish green; tender, juicy and rich; an abundant bearer. November to March.

DWARF APPLES

We recommend the following sorts for the small suburban garden:

Baldwin, Duchess, Fall Pippin, McIntosh, Red Astrachan, Rhode Island Greening, Rome Beauty, Stayman's Winesap, Wagoner, Wealthy and Yellow Transparent.

Price: Splendid, symmetrical trees, all two years old, each, \$1.50; dozen, \$15.00.

PLUMS

Plant 20 feet apart each way. First-class trees, each, \$1.50; dozen, \$15.00.

Abundance (Japanese).—Early. Amber, much covered with carmine. Very juicy and of excellent quality; heavy annual bearer. Best and most reliable Plum for New Jersey.

Bradshaw.—Early. Purple with bloom. Very large; reliable, but of only fair quality.

Burbank (Japanese).—Ripens late in August. Inclined to overbear, but when properly thinned produces fruit of immense size. Cherry-red with deep yellow flesh, sweet, meaty.

Grand Duke.—A large purple variety that does not rot upon the tree. Reliable, valuable. Ripens late.

Lombard.—Midseason. A very reliable and popular variety. It is very prolific.

CHERRIES

Plant sweet varieties 25 feet apart each way. Plant sour varieties 20 feet apart each way.

Extra selected trees, each, \$1.75; dozen, \$17.50.

Black Tartarian (Sweet).—Undoubtedly the most largely planted sweet cherry in the East. Beautiful dark purple Early.

Early Richmond (Sour).—Bright red, very acid; extremely prolific; popular.

Gov. Wood (Sweet).—The fruit, which is large, is red and amber and of excellent quality.

Montmorency (Sour).—The most 1 planted of the sour varieties. Light red

Napoleon (Sweet).—Pale yellow and bright red; of great size; juicy and sweet.

Rockport (Sweet).—Large; clear red shaded with pale amber; firm, juicy and sweet.

Schmidt's Bigarreau (Sweet).—An immense black cherry of very high quality.

Windsor (Sweet).—Deep purple, large, extremely firm and of high quality.

Yellow Spanish (White Amber) (Sweet).—Pale amber, with red on sunny side; large, firm, juicy, of high quality; beautiful.

PEARS (Standard)

Plant 20 feet apart each way.

First-class trees, each, \$1.50; dozen, \$15.00.

ANGOULEME (DUCHESS).—Autumn. Green, very large, coarse grained but juicy.

ANJOU.—Late autumn. Green with red cheek; high quality, juicy and melting; strong-growing tree, prolific.

BARTLETT.—Summer, yellow; widely grown and the most popular of all varieties.

CLAPP'S FAVORITE.—Early summer. Green with red cheek; large, juicy, melting; prolific; decays quickly when ripe.

KIEFFER.—Autumn. Yellow, with red cheek, coarse grained and of poor quality; handsome tree and very prolific.

SECKEL.—Early autumn. Dull red, with much russet; small; of high quality.

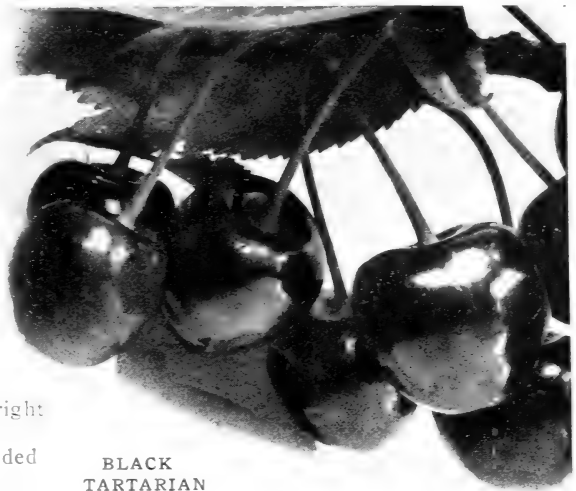

DWARF PEARS

Plant 10 feet apart each way.

Splendid trees, all two years old or older, each, \$1.25; dozen, \$12.50.

These are especially useful in gardens of limited dimensions, one especially desirable trait being that they start bearing almost immediately, frequently the same season planted.

We have them in all the following varieties, viz.: **Angouleme**, **Bartlett**, **Clapp's Favorite** and **Seckel**.

BLACK
TARTARIAN

PEACHES

Plant 18 feet apart each way.

Note.—We do not recommend that peaches be planted in the fall except in light soil.

One grade only, the best—extra heavy, each, 75c.; dozen, \$7.50; 100, \$40.00.

Belle of Georgia.—Midseason. White, over-spread with red. Firm, sweet; freestone.

Carmen.—Early—in fact, the earliest variety that we consider of sufficient merit to grow. White, with red cheek, hardy and a sure bearer.

Crawford's Early.—Large, yellow with red cheek, flesh yellow, juicy, sweet and good. Middle of August.

Crawford's Late.—Late, yellow, with red cheek; very large and of high quality.

Elberta.—Midseason. Yellow, largely overlaid with red. Of fair quality; excellent for canning.

Francis.—Ripens just after Elberta. Skin yellow; flesh golden yellow.

Hiley.—Second early, ripening just after Carmen. Creamy white, with deep red cheek. Flesh is white, very juicy, of fine quality.

J. H. HALE.—Deep golden yellow overlaid with carmine. Ripens after Crawford's Early. Each, \$1.00; dozen, \$10.00.

ROCHESTER.—This very valuable extra early yellow Peach is, we believe, the finest variety we have ever seen. It is simply immense in size, beautiful in appearance, of superb quality. Each, \$1.00; dozen, \$10.00.

QUINCES

Plant 10 feet apart each way.

First-class trees, each, \$1.25; dozen, \$12.50.

CHAMPION.—Late. Greenish yellow; large.

ORANGE (Apple).—Early. Deep yellow, large.

DWARF PEAR TREES YIELD HANDSOME CROPS FROM SMALL SPACE!

HARDY CLIMBING AND TRAILING ROSES

Planted this Fall, bloom freely next Summer

Our collection of Climbing Roses is, we believe, second to none. Every variety offered has been given the most rigid sort of test, so that we can recommend every one of the varieties. Price (except as noted), strong two-year field-grown plants, 75c. each; \$7.50 per dozen.

The Lovely Trio of the Lovett Sisters' Climbing Roses

These are all the result of efforts of the famous hybridizer, Dr. Van Fleet, to whom we are indebted for some of the choicest new creations in Roses. Among climbers the following rank unsurpassed.

ALIDA LOVETT.—This may be described in brief by saying it is an improved Dr. Van Fleet. In habit it is quite like the popular Van Fleet, but with larger and more beautiful mildew-proof foliage.

Both buds and flowers are large; are of ideal form; are held on stiff stems a foot and a half to two feet long, and the color is a lively bright shell pink with shading of rich sulphur at the base of petals—a combination that is both novel and beautiful. It is very much brighter and more cheerful in color, with larger flowers, than those of the justly popular Dr. Van Fleet Rose.

The plant is of strong growth, a free bloomer and of ironclad hardihood; flowering for a long season. It is also quite fragrant. Price, each, \$1.50; dozen, \$15.00.

BESS LOVETT.—Is of strong growth, with large, glossy Silver Moon-like foliage, and, what is remarkable in a climbing rose, the flowers are exquisitely fragrant. There is no other climbing rose we have ever seen that at all approaches, much less rivals, this grand rose in perfume. Flowers are lavishly produced, are of good size, double, full and cupped form; being similar in make-up to the Climbing American Beauty, but very much brighter in color and more fragrant by far.

The color is a clear bright red. The roses, which are very lasting, are also very beautiful in bud and are borne on long stems, hence are admirable for cutting. Price, field grown, each, \$1.00; dozen, \$10.00.

MARY LOVETT.—The superb pure white climbing rose. It is very much like the beautiful Dr. W. Van Fleet Rose, except the large full flowers are pure snow white. They are held on long, strong stems and are delightfully sweet-scented. It blooms in late summer and autumn as well as in June. It is a strong grower, with abundant mildew-proof foliage, and is exceedingly free flowering. The flowers are very lasting if left upon the plant or when cut. Beyond question, the finest and most valuable climbing white rose as yet offered. Price, field-grown plants, each, \$1.00; dozen, \$10.00.

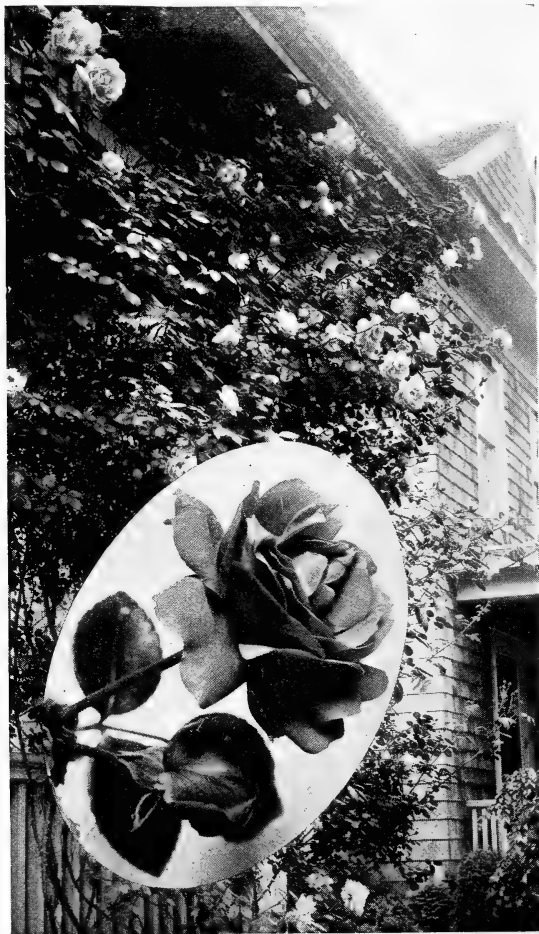

AMERICAN PILLAR.—This is positively one of the most gorgeous climbers that we have ever seen. Its glossy, mildew-proof foliage and extremely strong growth make it desirable for covering summerhouses and arbors; at the same time, its wealth of bloom is truly wonderful. When in bloom it is almost covered with immense clusters of single blossoms, three inches across, that are a lovely apple-blossom pink, with bright golden stamens.

AUNT HARRIET.—Originated by the famous Rose-hybridizer, Dr. W. Van Fleet. In full bloom it is amazingly fine, with scarlet-crimson Roses loading every branch. Awarded Certificate of Merit, American Rose Society.

GARDENIA (Hardy Marechal Niel).—The very pretty pointed buds of this rose are nankeen yellow, turning to waxy white when expanded, and are held on long stems. Profuse bloomer and glossy foliage.

Climbing American Beauty.—Of the same color and fragrance as the American Beauty, but smaller. A profuse bloomer and a vigorous grower.

Climbing Clothilde Soupert.—A truly ever-blooming climbing rose. Loose clusters of large French white blossoms, with centers of silvery rose, are produced for a long season.

ALIDA LOVETT—With Bess Lovett in Oval Insert

TAUSENDSCHOEN
or Thousand Beauties

HARDY CLIMBING ROSES, Continued

Climbing Orleans.— Produces in clusters semi-double geranium red blooms with edges of bright carmine and white centers.

Crimson Rambler.—Produces a profusion of large clusters of deep crimson semi-double flowers. A splendid variety for covering walls, verandas, etc. Subject to mildew.

Dorothy Perkins.— An unusually profuse bloomer, giving large clusters of clear rose pink, double flowers which are very lasting. It is a strong grower and very hardy. A very valuable rose. Each, 60c.; dozen, \$6.00.

DR. W. VAN FLEET.—Delicate shell pink, mildly perfumed flowers are produced abundantly. The perfect pointed buds are large and as perfect as though greenhouse-grown, and the open blooms are large and most attractive. The center is built high and the outer petals are beautifully cupped.

Ernest Grandpier.—Blooms are glistening creamy white, double, with a pointed center and resemble a Cape Jasmine. Splendid for cutting.

EXCELSA (Red Dorothy Perkins).—Flowers brilliant crimson; plant of Wichuraiana habit and foliage. It has the vigor and profuse bloom of the Dorothy Perkins, and its double flowers of good size are borne in clusters of thirty to forty each. *Really an improved Crimson Rambler.* Each 60c.; dozen, \$6.00.

FRAU OCTAVIE HESSE.—In both habit of growth and mildew resistance this very much resembles Ernest Grandpier. The color, however, is a real deep pink, almost cerise.

Hiawatha.—A sturdy variety producing abundant single flowers of a brilliant ruby carmine with a clear white eye and a mass of golden stamens.

Lady Gay.—A profuse bloomer of soft cherry pink flowers which fade to blush white. When in flower with its cherry pink buds, soft pink flowers and rich green foliage, it presents a picture beyond words to describe.

PAUL'S SCARLET CLIMBER.—A very fine English sort of recent introduction. It surely has won a place for itself, with its large, brilliant scarlet flowers produced in glorious profusion. Though but semi-double, the flowers are of surprisingly large size and are borne long after the June bloomers have seen their day. Winner of many highest awards, including Gold Medal of National Rose Society of England. **Heavy 2-year-old field-grown plants, \$1.00 each; \$10.00 per dozen.**

Philadelphia.—A seedling of the Crimson Rambler, but blooms earlier and with larger, more brilliant flowers.

Silver Moon.—A rose in a class by itself. So strong a grower, it is a giant. Has abundant innumerable very beautiful nankeen yellow pointed buds in June, which open into pure silver white blossoms, four inches or more in diameter.

Tausendschoen (Thousand Beauties).—A fine rose indeed. From early June until well into July it is literally covered with clusters of semi-double flowers of varied shades of deep to light pink and white. (Illustrated above).

Vondel.—Many clusters of clear light pink flowers with creamy white centers are produced from June until frost. A true "Ever-blooming Rose."

Wichuraiana (Memorial Rose).—A perfect trailer with dense dark glossy green foliage and single pure white flowers. Each 60c.; dozen, \$6.00.

White Dorothy Perkins.—A sport of the popular Dorothy Perkins, and like it in every way except its flowers are white. Free in bloom and with disease-resistant foliage.

THE CHARMS OF THE "OLD-FASH- IONED" HARDY PERENNIAL BORDER

May be enjoyed by you and yours, beginning next spring and continuing throughout summer and fall—if you set out the plants NOW! September and October bring ideal planting weather, so why not make the best of it?

Here is a list offering only those sorts that should really be planted in autumn.

Hardy Perennial Plants vary greatly in weight, according to the varieties. The average weight of these plants is: dozen, 4 lbs.; 100, 30 lbs.; knowing which, customers who wish shipment by mail can determine the amount to remit for postage.

The prices quoted are for well-developed plants.

Achillea Ptarmica. BOULE DE NEIGE.—Each 20c.; dozen, \$2.00; 100, \$12.00.

Achillea Ptarmica. THE PEARL.—Each, 15c.; dozen, \$1.50; 100, \$10.00.

Aegopodium podogaria variegata.—Each, 15c.; dozen, \$1.50.

Anchusa Italica Dropmore and Opal.—Each, 20c.; dozen, \$2.00; 100, \$12.00.

Anthemis tinctoria.—Each, 20c.; dozen, \$2.00.

Aster, Tartaricus.—Each, 20c.; dozen, \$2.00; 100, \$12.00.

Aquilegia, Chrysantha, Long Spurred Hybrids.—Each, 20c.; dozen, \$2.00; 100, \$12.00.

Asclepias tuberosa.—Each, 20c.; dozen, \$2.00; 100, \$15.00.

Coreopsis lanceolata.—Each, 15c.; dozen, \$1.50; 100, \$10.00.
Daisy, Shasta, Alaska, California, King Edward VII, Market Favorite.—Each, 20c.; dozen, \$2.00; 100, \$15.00.

Delphinium Belladonna, Bellamosa, Hybridum, Sinensis and Sinensis alba.—Each, 20c.; dozen, \$2.00; 100, \$15.00.

Desmodium penduliflorum.—Each, 35c.; dozen, \$3.50.

Eryngium amethystinum.—Each, 15c.; dozen, \$1.50; 100, \$10.00.

Eulalia Gracillima, Japonica, Japonica variegata and Japonica Zebrina.—Each, 20c.; dozen, \$2.00; 100, \$15.00.

Funkia Coerulea, Lancifolia undulata variegata and Sieboldiana.—Each 20c.; dozen, \$2.00.

Gypsophila Paniculata.—Each, 20c.; dozen, \$2.00; 100, \$15.00.

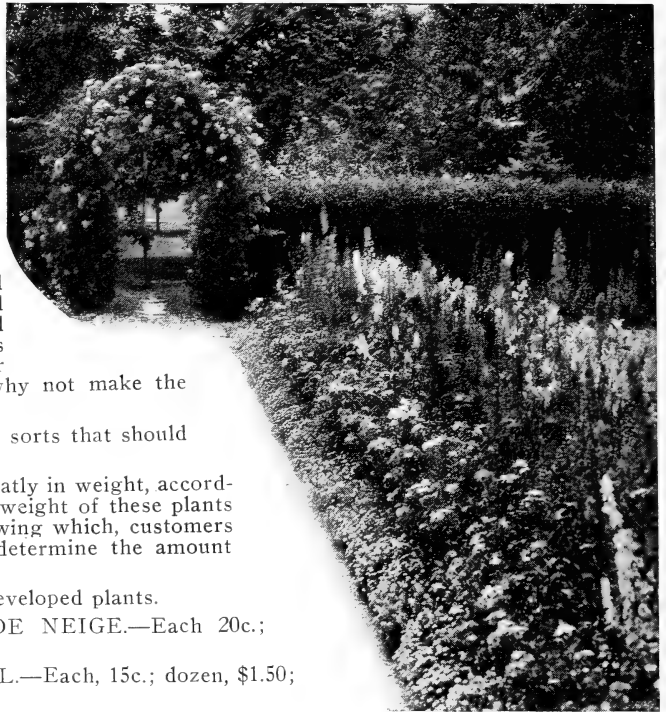

Helianthemum Croceum.—Each, 15c.; dozen, \$1.50; 100, \$10.00.

Helianthus Maximiliana, Miss Mellish and Mollis.—Each, 20c.; dozen, \$2.00; 100, \$12.00.

Heliopsis Pitcheriana.—Each, 20c.; dozen, \$2.00; 100, \$12.00.

Hemerocallis Dumortieri, Flava, Florham, Gold Dust, Kwanso and Orangeman.—Each, 20c.; dozen, \$2.00; 100, \$12.00.

Hibiscus Meehan's Mallows.—Each, 25c.; dozen, \$2.50.

Enjoy the pleasures of an "old fashioned" hardy garden at small cost. Please refer to inside back cover for special offer of a complete collection—well balanced to produce flowers from frost to frost.

HARDY PLANTS, Continued

Hibiscus Militaris.—Each, 20c.; dozen, \$2.00.
Hibiscus Moscheutos alba, rosea and mixed.—
 Each 20c.; dozen, \$2.00; 100, \$12.00.
Iberis Sempervirens and Snowflake.—Each, 15c.;
 dozen, \$1.50; 100, \$10.00.
Iris Germanica (Liberty Iris of Fleur de Lis).—
 Named varieties (see Catalog No. 108 for descrip-
 tions), each, 15c.; dozen, \$1.50; 100, \$10.00.
Iris Germanica.—Mixed varieties. Each, 12c.;
 dozen, \$1.25; 100, \$7.50.
Iris Pseudo Acorus.—Each, 25c.; dozen, \$2.50;
 100, \$15.00.
Iris Kaempferi (Japan Iris).—Named varieties
 (for descriptions see Catalog No. 108), each, 25c.;
 dozen, \$2.50; 100, \$18.00.
Iris Kaempferi.—Mixed varieties. each, 20c.;
 dozen, \$2.00; 100, \$12.00.
Iris Sibirica.—Blue King, Orientalis and Snow
 Queen, each, 20c.; dozen, \$2.00.
Lathyrus Latifolius and White Pearl.—Each, 20c.;
 dozen, \$2.00.
Liatis Pycnostachya.—Each, 20c.; dozen, \$2.00.
Lychnis chalcedonica and Viscaria fl. pl.—Each,
 20c.; dozen, \$2.00.
Lysimachia clethroides.—Each 20c.; dozen, \$2.00.
Myosotis Palustris semperflorens.—Each, 15c.;
 dozen, \$1.50; 100, \$10.00.
Oenothera Pilgrimi.—Each, 20c.; dozen, \$2.00.
Pachysandra Terminalis.—Each, 25c.; dozen,
 \$2.50; 100, \$18.00.
Pardanthus Sinensis.—Each, 15c.; dozen, \$1.50;
 100, \$10.00.
Penstemon Barbatus Torreyi and Digitalis.—
 Each, 20c.; dozen, \$2.00; 100, \$15.00.
Peonies.—Double named varieties (see Cata-
 log No. 108 for descriptions), each, 60c.; dozen,
 \$6.00.
Peonies.—Double mixed, each, 50c.; dozen,
 \$5.00.
Peonies.—Single mixed, each, 60c.; dozen
 \$6.00.
Phlox, Hardy.—A good assortment of vari-
 eties. Each, 20c.; dozen, \$2.00; 100, \$12.00.
*Pinks, Hardy, Abbotsford, Arthur, Essex
 Witch, Her Majesty and Plumarius nanus fl.
 pl.*—Each, 20c.; dozen, \$2.00; 100, \$12.00.
Physostegia Virginica and Virginica alba.—
 Each, 20c.; dozen, \$2.00; 100, \$12.00.

STATELY DELPHINIUMS—The Spires and Min-
 arets of our Gardens

Platycodon Mariesi and Mariesi alba.—Each,
 20c.; dozen, \$2.00.
Pyrethrum Roseum Hybridum and Uliginosum.—
 Each, 20c.; dozen, \$2.00.
*Rudbeckia Laciniata fl. pl., Purpurea and
 Sub-Tomentosa*.—Each, 20c.; dozen, \$2.00.
Rudbeckia Nitida Hirsutu.—Single, golden
 yellow flowers. Each, 15c.; dozen, \$1.50.
*Spiræa Aruncus, Palmata and Palmata Ele-
 gans*.—Each, 20c.; dozen, \$2.00.
Statice Latifolia.—Each, 20c.; dozen, \$2.00.
Stokesia Cyanea.—Each, 20c.; dozen, \$2.00.
Veronica Longifolia Subsessilis and Spicata.
 —Each, 20c.; dozen, \$2.00.
Viola, Double English and Gov. Herrick.—
 Each, 20c.; dozen, \$2.00.

WHERE SHASTA DAISIES VIE WITH PHLOX TO MAKE EARLY JULY GARDENS A VERITABLE FAIRY-
 LAND OF BRIGHTLY GAY SURPRISES

CHOICE SHRUBS AND DWARF DECIDUOUS TREES

Owing to the difficulty and expense of packing for shipment Deciduous Trees in small lots, we include in the following list only those of somewhat dwarf habit. Prices for other varieties, of which we have a large assortment, will be cheerfully given upon request.

The prices quoted are for well-developed stocky plants. A dozen of any variety will be supplied for ten times the price of one (six for five times the price of one), but this dozen rate may be used only when six or more of a variety are taken. The hundred rate of any variety will be promptly sent if desired. We solicit an opportunity to give special quotations upon lists of Shrubs and Ornamental Trees for landscape planting.

Shipment should be made by express or freight, as the plants are too large for mailing.

All the varieties offered do best planted in autumn

ARALIA

SPINOSA. Hercules Club, Devil's Walking Stick or Angelica Tree.—A tall-growing treelike shrub with large leaves in an umbrella-like head. 4 to 5 ft., 50c.; 5 to 6 ft., 75c. each.

BERBERIS. Barberry

For both Japanese and Box-Barberry. See "Hedge Plants."

CERCIS. Judas Tree

CANADENSIS. American Judas Tree.—A tall-growing shrub or dwarf tree bearing pea-shaped, showy, rosy-pink flowers in early spring. 3 to 4 ft., 60c.; 4 to 5 ft., 75c. each.

CORNUS. Dogwood

ALBA (Siberica). Red-barked Dogwood.—Has very showy vivid bright red bark. 2 to 3 ft., 30c.; 3 to 4 ft., 40c. each.

FLORIDA. White-flowered Dogwood.—In late May and early June it is enveloped in large white flowers or involucre. Its autumn foliage is crimson and carmine. 4 ft., 60c.; 6 ft., \$1.00; 8 ft., \$1.50 each.

FLORIDA RUBRA. Red-flowered Dogwood.—A variety of the well-known flowering Dogwood, with rosy-pink flowers. 3 to 4 ft., \$2.00; 4 to 5 ft., \$2.50 each.

STOLONIFERA AUREA. Golden-barked Dogwood.—Both conspicuous and attractive. 2 to 3 ft., 30c.; 3 to 4 ft., 40c. each.

DEUTZIA

CRENATA FL. PL. Double Deutzia.—Of tall habit. In June has racemes of double white flowers, tinted with pink.

CRENATA ALBA FL. PL. Pride of Rochester.—Flowers are pure white.

GRACILIS.—Of dwarf habit, with a profusion of graceful, pendulous white flowers in June. 12 to 18 in., 35c. each.

DEUTZIA, Continued

LEMOINEI.—Literally covered with broad dense heads of snow-white flowers. 2 to 3 ft., 35c.; 3 to 4 ft., 50c. each.

Prices, except as noted, 3 to 4 ft., 40c.; 4 to 5 ft., 50c. each.

DESMODIUM (Lespedeza)

PENDULIFLORUM (Sieboldi).—An exceedingly attractive shrubby plant with finely divided foliage, and large, long, drooping clusters of showy reddish-purple, pea-like flowers in great masses during summer and autumn. Grows 3 to 4 feet high. Strong plants, 35c. each.

EUONYMUS. Strawberry Tree

ALATUS.—Small foliage, followed by red fruit in autumn. Assumes brilliant shades of red in autumn. 3 to 4 ft., 75c. each.

FORSYTHIA. Golden Bell

INTERMEDIA.—Very free early flowering.

SUSPENS. Weeping Forsythia.—Of spreading, weeping habit.

VIRIDISSIMA. Green-barked Forsythia.—Produces a wealth of bright, light yellow flowers in early spring before the leaves appear. Prices, 2 to 3 ft., 30c.; 3 to 4 ft., 40c. each.

HYDRANGEA

ARBORESCENS STERILIS (Arborescens Grandiflora). Snowball Hydrangea.—Large heads of snow-white flowers in lavish profusion from late in June until the last of August.

PANICULATA GRANDIFLORA.—Of vigorous growth and spreading habit, with broad terminal panicles of pure white flowers in August, frequently a foot long. In September the flowers change to pink or rose color.

Prices, 1½ to 2 ft., 50c.; 2 to 3 ft., 75c. each.

ITEA

VIRGINICA.—Of compact dwarf habit, with many dainty racemes of pure white flowers in June. Of delightful fragrance. 12 to 18 in., 40c.; 18 to 24 in., 50c. each.

LONICERA. Honeysuckle

FRAGRANTISSIMA. Fragrant Bush Honeysuckle.—Exquisitely fragrant flowers of pinkish pearl appear very early.

MORROWII.—Of graceful habit. Produces white flowers in May, succeeded by a profusion of showy red berries in late summer.

TARTARICA. Tartarian Bush Honeysuckle.—The fragrant pink flowers appear in May in great profusion and are followed by pretty, waxy, light red berries.

Each variety, 2 to 3 ft., 35c.; 3 to 4 ft., 50c. each.

PHILADELPHUS. Syringa

CORONARIUS. Mock Orange.—Of upright habit and produces in June a wealth of white fragrant flowers that resemble orange blossoms.

GRANDIFLORUS.—Has larger flowers than are not so fragrant; stronger grower.

ZEYHERI.—Tall growing, with large fragrant white flowers. A fine sort. 3 to 4 ft., 50c.; 4 to 5 ft., 75c. each.

PRIVET. Ligustrum

AMURENSE. Amoor River or Russian Privet.—See "Hedge Plants."

OVALIFOLIUM. California Privet.—See "Hedge Plants."

OVALIFOLIUM AUREUM. Golden Privet.—Color of foliage is a lively lemon yellow. 12 in., 35c.; 18 in., 50c. each.

GLOBE OR BALL PRIVET.—The California Privet grown to form a dense solid ball of foliage. 18 in. in diameter, \$1.50; 24 in. in diameter, \$2.00; 30 in. in diameter, \$2.50 each.

PYRAMIDAL.—The California Privet grown by frequent prunings into dense pyramidal form. 4 ft., \$4.00; 5 ft., \$5.00 each.

RHODOTYPUS

KERROIDES. White Kerria.—White flowers in May and black berries in late summer. 18 to 24 in., 35c. each.

ROSA

RUGOSA. Japanese or Ramanus Rose.—Rich green leaves. It produces great numbers of large single rose colored flowers all summer. 1½ to 2 ft., 40c.; 2 to 3 ft., 50c. each.

SPIRAEA

ANTHONY WATERER.—The finest of the Dwarf Spiraeas A purple crimson—and is the most profuse bloomer of them all. 1½ to 2 ft., 50c. each.

BILLARDI.—Of rather dwarf habit. Produces a profusion of rosy-pink flowers from June till October. 3 to 4 ft., 40c.; 4 to 5 ft., 50c. each.

CALLOSA ALBA. Dwarf White Spiraea.—Its slender branches are covered all summer with pure white flowers. 18 to 24 in., 40c.; 2 to 3 ft., 50c. each.

OPULIFOLIA. Snowball-leaved Spiraea or Ninebark. Especially valuable for shaded locations. 3 to 4 ft., 40c.; 4 to 5 ft., 50c. each.

OPULIFOLIA AUREA. Golden-leaved Spiraea.—Yellow leaves that turn to yellowish green in late summer. Has white flowers in June. 3 to 4 ft., 40c.; 4 to 5 ft., 50c. each.

SPIRAEA, Continued

PRUNIFOLIA FL. PL. Bridal Wreath.—In May and early June the branches are laden with masses of dainty, double, white flowers. Glossy green leaves turn to crimson in autumn. 3 to 4 ft., 50c.; 4 to 5 ft., 60c. each.

VAN HOUTTEI.—The most popular and the most valuable of all the Spiraeas. In late May and early June its white flowers entirely cover the broad spreading bush. 2 to 3 ft., 30c.; 3 to 4 ft., 40c.; 4 to 5 ft., 50c. each.

SALIX. Willow

ROSMARIANIFOLIA. Rosemary-leaved Willow.—So dwarf in habit of growth that it is a shrub. It has small slender branches, and silvery gray foliage. 2 to 3 ft., 30c.; 3 to 4 ft., 40c. each.

SAMBUCUS. Elder

NIGRA AUREA. Golden Elder.—The large leaves are a bright lemon yellow. 3 to 4 ft., 50c. each.

STEPHANANDRA

FLEXUOSA.—A graceful shrub of rather low habit. Has clean, fresh looking deeply toothed leaves. 3 to 4 ft., 40c. each.

SYRINGA. Lilac

PERSICA. Persian Lilac.—Of spreading habit with slender branches and loose panicles of rosy lilac fragrant flowers, in great profusion in June. 3 to 4 ft., 50c. each.

VULGARIS. Purple Lilac.—The old-fashioned Lilac; produces many large clusters of richly fragrant light purple flowers in early spring. 2 to 3 ft., 40c. each.

VULGARIS ALBA. White Lilac.—Fragrant white flowers. 2 to 3 ft., 50c. each.

SYMPHORICARPUS

RACEMOSUS. Snowberry.—An old favorite. Has small pink flowers in July and August, which are followed by great numbers of large pure white waxlike berries in clusters. 2 to 3 ft., 35c.; 3 to 4 ft., 50c. each.

VULGARIS. Indian Currant, Coral Berry.—Of low-growing and graceful habit with numerous small pink flowers in August and September, followed by dull red berries. 2 to 3 ft., 30c.; 3 to 4 ft., 40c. each.

VIBURNUM. Snowball

OPULUS STERILIS. Common Snowball or Guelder Rose.—Strong grower, of spreading habit. In late May and early June it bears large round clusters of pure white flowers hung on long swaying stems. 2 to 3 ft., 60c. each.

WEIGELA (Diervilla)

CANDIDA. White Weigela.—Of strong growth and spreading habit. During the late spring and nearly all summer it produces handsome pure white flowers freely.

EVA RATHKE.—The flowers of this are a deep garnet red and are produced in abundance throughout the summer and autumn. 18 to 24 in., 50c. each.

ROSEA AMABILIS. Pink Weigela.—Of the same habit as W. Candida and produces great masses of deep pink flowers in June.

ROSEA NANA VARIEGATA. Variegated-leaved Weigela.—The leaves are deeply margined with clear creamy white, distinctly defined. In June it produces light pink flowers.

Price, except as noted, 2 to 3 ft., 60c. each.

HEDGE PLANTS

Rates by the 1,000 promptly given by letter upon request.

BERBERIS THUNBERGII

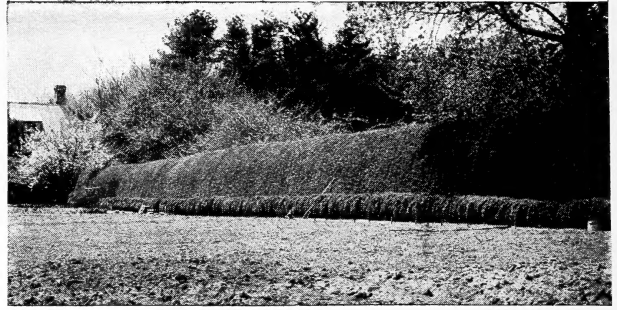

Plant 12 inches apart. Exceedingly hardy. Has very neat and pretty light green, glossy leaves that turn to bright shades of red in autumn. Transplanted, 9 to 12 inches, dozen, \$2.00; 100, \$15.00; 12 to 18 inches, dozen, \$3.00; 100, \$20.00.

BOX - BARBERRY. — A very dwarf, compact form of Berberis Thunbergii, of ironclad hardihood. Especially valuable for edging beds or for low hedges. For edging, plant 4 inches apart; for a low hedge, plant 6 to 9 inches apart. Two years, field grown, dozen, \$3.50; 100, \$25.00.

HARDY NORTH AMOOR PRIVET

Plant in single rows eight inches apart. Has box-like leaves and forms a dense and handsome hedge. Highly recommended for shady situations.

| shady situations. | Doz. | 100 |
|----------------------|--------|--------|
| 9 to 12 inches..... | \$1.25 | \$6.50 |
| 12 to 18 inches..... | 1.50 | 8.00 |
| 18 to 24 inches..... | 2.00 | 12.00 |
| 2 to 3 feet..... | 2.50 | 15.00 |

BEAUTY, UTILITY AND ENDURANCE IN WALLS OF LIVING GREEN

CALIFORNIA PRIVET

Plant eight inches apart. Introduced by us in the early seventies and now more largely planted for hedges than any other shrub.

| | Doz. | 100 | 1,000 |
|----------------------|--------|--------|---------|
| 12 to 18 inches..... | \$0.75 | \$4.00 | \$35.00 |
| 1½ to 2 feet..... | 1.00 | 6.00 | 50.00 |
| 2 to 3 feet..... | 2.00 | 12.00 | 90.00 |

Note.—Full instructions for planting and the care of Privet Hedges mailed free

HARDY VINES AND CREEPERS

Vines will be sent by mail if cash is sent for postage as per table. Quotations by the 100 and 1,000 of any variety will be mailed upon request. All are strong two or three year plants.

AMPELOPSIS

VEITCHI. Boston or Japanese Ivy.—The most popular and best of climbers for covering walls, etc., clinging firmly to brick, stone or other material, and forming a perfect coat of deep, glossy-green foliage.

AMPELOPSIS VIRGINICA. Virginia

Creepor or American Ivy.—Of rapid, vigorous growth, covering quickly trellises, arbors, etc., with a mass of bright green foliage, which turns to a brilliant crimson in autumn.

Either Ampelopsis, strong, two years, each, 30c.; dozen, \$3.00; 100, \$20.00.

BIGNONIA (Tecoma)

RADICANS. Trumpet Creeper.—Has large trumpet-shaped flowers of vivid orange scarlet, in clusters during July and August. Each, 35c.; dozen, \$3.50; 100, \$25.00.

CLEMATIS

PANICULATA. Japanese Virgin's Bower.—The finest of all hardy vines for airy grace and beauty. In August and September, it is completely covered with a sheet of fleecy white, star-like flowers. Two-year roots, each, 30c.; dozen, \$3.00; 100, \$20.00.

LONICERA. Honeysuckle

HALLEANA. Hall's Japanese Honeysuckle.—Glossy green evergreen foliage. From May until November it produces in profusion pure white fragrant flowers. Two years, each, 30c.; dozen, \$3.00; 100, \$20.00.

HECKROTTI. Ever-blooming Honeysuckle.—Flowers crimson-carmine on the outside and golden apricot within. A constant bloomer. Two years, each, 35c.; dozen, \$3.50.

VINCA

MINOR. Periwinkle.—Known also as Trailing Myrtle. Of rapid growth and retains its glossy, deep green leaves throughout the year. Bright blue flowers during spring and early summer. Each, 20c.; dozen, \$2.00; 100, \$15.00.

WISTARIA. Glycine

SINENSIS. Chinese Wistaria.—Of rapid growth, its flowers of soft, dainty lavender blue are produced in May. Each, 50c.; dozen, \$5.00.

SINENSIS ALBA. White Wistaria.—The white-flowered form of above. Each, 75c.; dozen, \$7.50.

THE LOVELY WISTARIA

Fall an Excellent Time to Transplant EVERGREENS

Up to middle of October, for the latitude of New York City, is a splendid time to set out Evergreens. The cool fall weather combined with a normal moisture supply due to seasonal rains create ideal conditions for the moving of this otherwise difficult to handle nursery stock.

Those contemplating Evergreen plantings should write for our Catalog No. 107, giving a complete list of the special varieties of Evergreens which we are offering.

Information About Parcel Post and Rates of Postage

Maximum Weight, 70 lbs., in first, second and third zones; 50 lbs. in all other zones.

Size of Package cannot exceed a combined length and largest circumference of seven feet (84 inches).

Insurance Against Loss.—3c. pays up to \$5.00; 5c. up to \$25.00; 10c. up to \$50.00, and 25c. up to \$100.00.

Canadian Shipments cannot go by parcel post. They must be made by express or freight and charges must be prepaid.

Please be sure to send enough money to pay postage, in addition to cost of plants ordered, when shipment is to be made by mail. The surplus (if any) will be promptly returned when shipment is made. Postage on all shipments by mail must be prepaid. We cannot undertake to open accounts for postage. **When enough money is not sent to cover postage we forward by parcel post C.O.D. for balance.**

RATES of POSTAGE WITHIN U.S.

- Strawberries, pot grown, doz., 3 lbs.; 100, 24 lbs.
- Strawberry-Raspberry, doz., 12 ozs.
- Vines and Creepers, doz., 6 lbs.
- Wineberries. Same as Raspberries.

An Old-Fashioned Hardy Garden for \$5.00

With a view to introducing our "Hardy Perennials" to as many new patrons as possible we have decided to supply for only \$5.00, fifty husky plants (not more than five of a kind) all of which will bloom this year and for many years to come. This collection will be made up of the very best sorts, including Anchasas, Aquilegias, Larkspurs, Campanales, Poppies, Phloxes, Irises, Coreopsis, Shasta Daisies, and many other good sorts. Fifty Plants—\$5.00.

A Charming Combination of Two Lovely Hardy Plants

Lily of the Valley and English Violets. The chaste white of the one, combined with the modest, yet effective blue of the other, form a picture of striking beauty.

The Violet—Double English—The popular double, hardy variety. Very double, dark purple, and exceedingly fragrant flowers. Prefers partial shade. Each, 20c.; dozen, \$2.00.

The Lily of the Valley—We offer the American-grown plants of the giant-flowered variety. The plants with large, luxuriant, glossy dark green leaves and small bell-shaped, deliciously fragrant flowers in racemes are a great addition to any garden. Succeeds best in partial shade, in rich soil. Each, 15c.; dozen, \$1.50; 100, \$10.00. Strong clumps, each, 30c.; dozen, \$3.00; 100, \$22.00.

COMBINATION OFFER: We will forward one dozen clumps of Lily of the Valley and one dozen English Violets, for \$4.00 by express.

Lovett's

For Small Fruits

A Slogan and Its Meaning

FOR nearly fifty years we have specialized in Small Fruits. Doing one job well proved quite an undertaking in the relatively new field of producing quality berry plants in quantities. That we have succeeded in a large measure is partly due to the persistency of the founder of this business, who believed that America would become the great garden country which it ultimately will be.

Today we grow greater quantities of higher grade berry plants than are obtainable elsewhere. On our farms here in Little Silver and elsewhere we literally produce millions of Grape Vines, Blackberries and Raspberries, not to mention Strawberries, in the pot-grown product of which we specialize. But a few short years ago the growing and shipping of half a million pot-grown Strawberry plants would have constituted quite an item by itself. Today it constitutes but a small part of our summer and fall activity.

All this is not mentioned in a boastful spirit, but rather in an endeavor to get you to understand our business and learn to look to

Lovett's for Small Fruits
and material for your fall planting campaign
